

INDAWO

ABOUT INDAWO

Indawo

Noun: (Xhosa) Place

Maintaining your place is what we have been doing since 1967.

From painting, waterproofing and construction to industrial and commercial flooring and roofing solutions, structural and spalling repairs, redecorating, asbestos removal and rope access, Indawo has the expertise to restore buildings, townhouse complexes, retail, industrial, commercial, office and historic buildings.

WHY CHOOSE INDAWO?

Indawo's 3 core principles, CARE, PASSION AND PRIDE, are well known in the industry and set a high competitive standard.

Indawo appreciates the value of your building, and the importance of it to your business success. This drives Indawo to undertake projects with the due care demanded from a contractor.

Passion is not just a word at Indawo; it is a way of life and manifests in the quality of our production.

Our pride is visible in everything we do. Our goal is clear: we strive for perfection making us results-driven and proud to deliver quality.

Our reputation for quality, unrivalled service excellence and competitive pricing, on top of an unmatched work ethic is important to us and means you are guaranteed to get the best.

PAINTING

PAINTING

Painting has been Indawo's main service since its inception in 1967. From small commercial and multi-storey buildings and shopping centres to townhouse complexes, factories, warehouses and retail premises, Indawo has the right commercial painting solution for you.

CONSTRUCTION

CONSTRUCTION

With more than 50 years' experience in the building maintenance industry, Indawo, provides specialised construction services in the building maintenance industry. Backed by a dedicated, trained and fully equipped workforce led by experienced, qualified professionals, Indawo's focus is on key core competencies:

- Restoration
- Refurbishment
- Specialised Construction
- Tenant Installation
- Alterations

Each discipline requires a specific skills-set backed by industry knowledge and, importantly, experience. In the highly complex field of construction, knowledge and experience backed by the required qualifications are critical success factors that ensure the delivery of superior products and services.

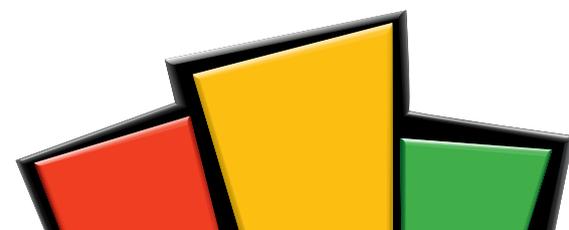

WATERPROOFING

WATERPROOFING

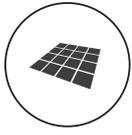

Indawo has offered waterproofing solutions since its inception in 1967. Water ingress in buildings is a major cause of costly structural damage. It is critical not to neglect waterproofing. Indawo's experienced team of professional waterproofers provides a targeted solution tailored to the needs of each waterproofing problem, using the right systems and maintenance methodologies.

CARE ■ PASSION ■ PRIDE

FLOORING

FLOORING

Indawo offers a range of tailored industrial and commercial flooring solutions. From classic flooring options to state-of-the-art industrial solutions, Indawo is able to provide quality of product matched by service excellence on top of workmanship and product guarantees.

ASBESTOS HANDLING

ASBESTOS

Indawo's team of trained professionals safely removes and disposes of asbestos in Cape Town and Johannesburg. This is a highly dangerous substance and today, strict legislation governs asbestos removal and asbestos handling. Indawo is a certified asbestos contractor and is registered at the Department of Labour as an asbestos handler.

REDECORATION

REDECORATION

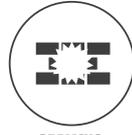

Indawo's range of redecorating work comprises single rooms to large buildings, and from general decorative painting to full restoration of buildings. When redecorating the interior or exterior of your building, it is critical that it is carried out to the highest standards. Indawo has a tailored solution that will ensure your building's aesthetics are of the highest standard possible.

ROOFING

ROOFING

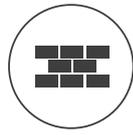

Roofing and roof restoration is a popular and cost effective means of upgrading buildings. A roof can make up 40% of a building's exterior, and restoration can improve overall appearance and value. Indawo offers just that. Indawo has precise solutions for industrial roofing challenges and commercial roofing projects, which are cost effective, tailored and safe.

SPALLING REPAIRS

SPALLING

Concrete and steel are primary building materials used for their strength and versatility. Although a strong substance, concrete does require steel reinforcing. Over time, and through exposure to a harsh climate, steel is susceptible to deterioration, largely due to moisture ingress causing carbonisation and/or chlorides that attack the integrity of steel. It is imperative that this deterioration is addressed to avoid larger costs based on structural damage over time. High winds, excessive sea spray and incessant rain attack the structural surfaces of buildings. Spalling repairs must be carried out by reputable construction and waterproofing companies that are legally compliant.

STRUCTURAL REPAIRS

STRUCTURAL REPAIRS

Concrete and steel are primary building materials used for their strength and versatility. Although a strong substance, concrete does require steel reinforcing. Over time, and through exposure to a harsh climate, this steel and surrounding concrete is susceptible to deterioration. It is imperative that this deterioration is addressed to avoid larger costs based on structural damage over time. High winds, excessive sea spray and incessant rain attack the structural surfaces of buildings. Structural repairs must be carried out by reputable construction and waterproofing companies that are legally compliant.

ROPE ACCESS

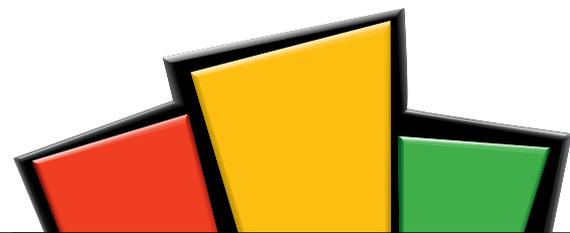

ROPE ACCESS

Rope access is a form of work positioning, initially developed from a sport climbing technique, and uses practical rope work to allow workers to safely access challenging areas without the use of expensive access scaffolding, cradles or mobile elevated platforms. It offers a convenient way to complete complex maintenance jobs and minimises the safety risk. Rope access in Cape Town is especially challenging with high winds and excessive rainfall and sea spray often hampering progress.

INDAWO TAKES RESPONSIBILITY FOR BRINGING THE BEST SOLUTIONS TO MAKE YOUR LIFE EASIER WITH CARE, PASSION AND PRIDE.
